

#### **Products**

### Scholars Desk

is a state-of-the-art and value-rich solution that has been patronized by a large number of schools / colleges. It caters to the core functions of a school / educational institution.

The product is popular with the small and mid-sized educational entities.

## Scholars ERP

is one of the most sought-after solutions for school management.

It is a feature rich online product and a notch above the desktop version by virtue of its enhanced features and convenient mobile application that serves as an interface between teachers, parents and students.

Interface and Modules

#### What we can address?

Some of the most prevalent problems

- Inefficiencies across functions
- Lots of paper work and hence increased cost
- Lack of transparency
- Absence of security and user-rights management system
- Poor training and support in case of most existing systems
- Cumbersome and time taking reporting systems

# Our USP

Thorough research with focus groups – mitigating inefficiencies to the extent possible

Easy Interface – ease of use

Customization – freedom of use

Controlled access – user rights management

Ongoing improvements – timely updates

Comprehensive Training – ensuring usage

Prompt and reliable support

We believe in long term relationships

## Training, Support, CRM

We have dedicated functions for Customer Support and Training. Besides, we have a process in place where our team will be in constant touch with you to have your feedback and to better understand your requirements. In short, we do not leave our clients when we transact, we are with them throughout the journey. We thus measure our success by our clients' success!

# Shri Sai Softpro Softwares (S S Softpro)
